## Spring festival, social practices of the Chinese people in celebration of traditional new year

China

Inscribed in 2024 ([19.COM](#)) on the Representative List of the Intangible Cultural Heritage of Humanity

In China, the spring festival marks the beginning of the new year. It falls on the first day of the first month of the Chinese calendar and involves a variety of social practices to usher in the new year, pray for good fortune, celebrate family reunions and promote community harmony. This process of celebration is known as 'guonian' (crossing the year). In the days preceding the festival, people clean their homes, stock provisions and prepare food. On New Year's Eve, families dine together and stay up late to welcome the new year. During the festival, people wear new clothes, make offerings to heaven, earth and ancestors, and extend greetings to elders, relatives, friends and neighbours. Public festivities are held by communities, cultural institutions, social groups and art troupes. The traditional knowledge of the rituals, customs, legends and ballads associated with the spring festival, and the skills of preparing festival decorations and supplies, are transmitted informally within families and communities as well as formally through the public education system. Related crafts and performing arts are transmitted through apprenticeships. The spring festival promotes family values, social cohesion and peace while providing a sense of identity and continuity for the Chinese people.

# 文化软实力与艺术传播

文化软实力（Cultural Soft Power）指一个国家通过文化吸引力、价值观感召力及意识形态影响力塑造国际认同的非强制性力量，其核心在于“以文化人”。约瑟夫·奈（Joseph Nye）提出，相较于军事或经济“硬实力”，软实力通过塑造他者偏好实现目标，例如敦煌壁画通过美学共鸣让全球观众主动理解东方哲学。

Cultural Soft Power refers to a nation's ability to shape global identity through cultural appeal, value resonance, and ideological influence without coercion. As Joseph Nye argued, it achieves goals by cultivating others' preferences, exemplified by Dunhuang murals inspiring worldwide appreciation of Eastern cosmology through aesthetic immersion.

# 艺术是一种文化软实力

艺术以情感为纽带跨越语言壁垒，将抽象文化价值观转化为可感知的符号系统。例如，中国古琴艺术被列入联合国非遗后，欧美音乐家通过即兴合创重新诠释《流水》，既传播“天人合一”理念，又消解文化霸权质疑——这种“去政治化”的审美体验，恰是软实力从文化认同到价值认同的渗透路径。

## Why Art Embodies Soft Power?

Art transcends linguistic barriers via emotional narratives, encoding cultural values into tangible symbols. When UNESCO-listed Guqin music was reinterpreted by Western musicians in collaborative performances, it disseminated the Daoist concept of "harmony between human and nature" while avoiding geopolitical tensions – proving how artistic dialogue converts cultural recognition into value alignment.

Support arguments with media data and theoretical frameworks (e.g., Joseph Nye's soft power theory).

## 分析框架/Framework

- 1.文化内核解码 Cultural Core: Symbols, aesthetics, and values embedded;
- 2.传播路径 Channels: Digital platforms, collaborations (e.g., UNESCO);
- 3.受众接受度 Reception: Foreign media discourse & public engagement metrics;
